

EPK-Suite License Fees

EPK-Suite is licensed on a simple, easy to administer mechanism, based on value to the licensee organization. There are no server licenses, modules, or role-based license fees. This means as individuals move within the organization and take on new responsibilities and functions, the licensing of EPK-Suite is not affected. And you do not have to pay additional license fees in those situations.

The system license fee for any customer configuration is based simply on the number of resources being managed and the number of managers/executives who manage those resources. The **Count** for license fee purposes is determined by adding the number of active resources in the EPK-Suite resource pool plus the number of EPK-Suite users who are not resources themselves, such as managers and executives.

1. **License Fee Schedule and Volume Discount.**

i. Count up to 100	\$20,000
ii. Count of 100-249	\$20,000 plus \$150 times COUNT over 100
iii. Count of 250-499	\$140 times COUNT
iv. Count of 500-999	\$125 times COUNT
v. Count of 1000-1999	\$105 times COUNT
vi. Count of 2000-2999	\$90 times COUNT
vii. Count of 3000+	contact EPK Group for site licensing

2. **Maintenance, support,** and all upgrades are included for 1 year. After that, continued maintenance, support, and upgrades are available for 20% of the license fee originally paid.
5. For the **first 6 months** after an initial license purchase of an EPK-Suite license, EPK Group will grant 100% credit of the license fees paid toward increases in the **Count** which result in a new volume discount level. The anniversary date for the included 1 year of maintenance, support, and upgrades will remain the date of the original license purchase.
